DEVICE REPAIR

All repairs include a 90 day warranty. Turn around time is usually 24-48 hours. Your device is thoroughly inspected and tested before returning.

INSTRUCTIONS

Step 1: Print and complete our Device Repair Form

Complete all fields and include this form along with your device so that we are able to identify who the device belongs to and also contact you for payment once the repair has been completed.

Step 2: Remove your device from your machine

ACR2000 control module repairs only (ROB-RA19606A): Be advised that we DO NOT need your keypad interface circuit board (green square circuit board, measures approx 2" x 2", attached to the keypad harness/ribbon) to perform repairs. Keep this board in a safe place as it cannot be replaced, and we are not responsible for loss or damage of this part.

Step 3: Prepare your device for shipping

Ensure that your device is packaged properly (if you are sending a PCB board, ensure that there is plenty of packing between screen and box) and insured if you choose.

Step 4: Ship to:

Automotive Equipment Parts
7302 W. Saint John Rd.
Glendale, AZ 85308

Step 5: Once the device arrives at our repair facility, it will be repaired and tested within 24-48 hours.

To make the best use of our resources, we do not contact you to inform you that we received your device due to the number of shipments we receive daily. If you would like verbal confirmation and your carrier's tracking system indicates that your shipment has been delivered to the above address, please contact us and we'll be happy to assist.

Step 6: After the repair is proven successful, we will contact you for payment.

Step 7: Once payment has been secured, we will ship your device back to you!

DEVICE REPAIR FORM

Please fill out completely so that we are able to contact you as needed and keep you informed on your order status.
